EDUCATION

University of Southern California (Annenberg) **Los Angeles, CA**
M.S. in Digital Media (Director's Award Recipient)

Relevant coursework: UX Strategy, Product Management, Research Methodologies, Product Design, Game UI Design, AR/VR Theory

University of Mumbai (K.C. College) **Mumbai, India**
Bachelor's in Mass Media, Journalism

Relevant coursework: Organizational Behavior, Media Psychology, Creative Writing, Mass Media Research

EXPERIENCE

TikTok **San Jose, CA**
Content Designer **May 2024 - Present**

- Led the 0-1 implementation of content design for TikTok Minis (mini or "casual" apps) including the main framework, auth permissions, For You feed promotions, payments, subscriptions, etc.
- Writing clear, concise, and user-friendly content and contributing to the overall design and product strategy for the open platform console that allows developers to integrate their apps and products with TikTok's APIs
- Spearheaded the content and localization strategy for OlympusAI, an AI tool to detect and effectively manage account security anomalies and threats
- Crafted successful, high-impact security content as part of TikTok's US and global elections strategy (Example: 2-step verification upsell with a 100% conversion rate for political accounts)

Intuit (3-month contract) **Mountain View, CA**
Content Designer **Feb 2024 - May 2024**

- Developed the content strategy for the core Intuit platform (IDX team) as the primary content designer
- Iterated on platform-level content solutions for internal and external disclosures for users onboarding to Intuit offerings such as Credit Karma
- Participated in usability testing sessions to gather feedback on content effectiveness and enhancing trust building with users
- Delivered end-to-end content for Intuit's third party partnerships with clients such as Apple

Citrix **Santa Clara, CA**
Content Designer **June 2023 - Jan 2024**

- Led the content, language, product voice and tone, and UI copy for Citrix Monitor, Director, and Analytics
- Collaborated with product designers, UX researchers, product managers, and developers on a content strategy that aligns with the overall user experience goals and business objectives of major product areas
- Wrote clear, concise, and accessible content for in-product messaging, onboarding guides, and the general UI

Chegg Inc. **Santa Clara, CA**
Content Design Intern **May 2022 - Aug 2022**

- Led the implementation of Chegg's content design style guide, defined content standards, internal content audit guidelines, safety and security related terms
- Developed user-centered design solutions to increase discovery and engagement of the course dashboard, partnered cross-functionally with UX, product and engineering teams in all phases of the design process
- Worked with the localization teams to write and test microcopy such as headings, labels, calls to action, error messages, notifications, and in-product messaging
